JDW, While I await further phone calls after dark my apologies for not phoning you to let you know of the long Pacifica (Kerr & Neff, KPFA) on the CIA and mind-bending /LSD they may have aired this evening....Almost everyone chickened out after considerable excitement. Only CDN sent someone here. My keeping the phone as free as possible, while it missed ABC's evening TV news tonight, may have the story on tomorrow's. Schoumacher could not get me until after 7:30 our time. I had this story to try to get out plus finishing up on the reported Enquirer job...No point in details, for I miseed few bases. The story (Olson/LSD/CIA) may take off again but today it was all feared. (I know oldest of three children.)Even Eason did not return call made before he got there...Pretty terrible, frightening stuff...Separately local coverage being sent...Now that things have quieted down I'm tired again. Best, HW 7/11/75
